

## SHARED FLATS/APARTMENTS

Shared apartments are located throughout the city in safe neighborhoods. Most house 4 Parsons students in 2 bedrooms, with a shared living room, kitchen, and bathroom. Meals are not included but kitchen appliances will be provided. Internet is included. Apartments are equipped with washing machines but dryers are not common in Paris, so students will hang dry laundry, or bring it to a local laundromat. Free cleaning service is included twice per month. Standard maintenance and service requests are submitted through an online system. There is also a 24/7 emergency hotline should an urgent issue arise. Apartments are typically between 60-70 square metres, which is smaller than American apartments, but standard for most throughout Europe. *Please note that apartments do not have central air conditioning. Students who select this option for the full Academic Year will have access to their flats for the full program housing dates and will not be required to vacate during school breaks.*

## INDIVIDUAL STUDIO IN STUDENT RESIDENCE

The individual studios are located in a Parisian student residence hall. Living in the residence hall offers students the opportunity to meet local French students. Students have single studios with a bed, desk, kitchenette, bathroom and storage space. Meals are not included but kitchen appliances will be provided. The residence hall has shared laundry facilities (students can pay by credit card) or students may go to a local laundromat. Internet is included. There is a common lounge area for students to hang out in with couches, a TV and books. Please note that apartments do not have central air conditioning. NOTE: Placements in the individual studios are limited. Students who select the individual studio option will be committing to the placement for the full Academic Year. Students will have access to their flats for the full program housing dates and will not be required to vacate during school breaks.

**\$8,200** PER SEMESTER • **\$16,400** ACADEMIC YEAR

*Paris is a large city, so students can expect to use public transportation (i.e. Métro or bus) to move around the city on a daily basis, for both getting to/from school and for social or cultural activities. It is a part of life in Paris! Generally, it will take students about 30-45 minutes to get from their program housing to school.*
